NuPastels by Prismacolor are a harder pastel and great for detail work, and are professional grade. I recommend a minimum set of 24.

Pastel pencils are very hard and great for detail. I recommend Faber-Castell, Derwent, Stabilo or Conte pastel pencils.

**Pointers for picking the right photo:**

Bring several photos of animals (Close ups are great). Please look at your photos closely. Ask yourself is the photo well lit? What makes you want to paint it?

If you're a new comer to pastel pick a photo to paint, go to a local art store that carries pastel and match your pastels to your photo.
