

Introduction to Fashion Illustration – Supply List

Instructor Amanda Perna

Fashion Illustration is one of the most important elements of the design process. It is how we get our ideas from our head out into the world, and how we communicate our thoughts to other members of our team and/or clients. Welcome to intro to fashion illustration, I am looking forward to drawing with you!

These supplies will help make your intro to fashion illustration the best it can be, but please feel free to swap them out for similar options if necessary. I have included a shopping list to make it easy for you!

Supply list:

- Paper
- Tracing paper
- Pencils
- Pens
- Ruler – Straight & French Curves
- You also should find at least one skin tone Prismacolor marker that you prefer
- [Here is a link to some recommended items](#)

OPTIONAL

- My favorite book is [9 Heads: A guide to Drawing Fashion](#), if you would like to purchase your own copy, I will refer to it in class. This is not a mandatory item, just recommended.
- Tracing light box - this will make it easy for you to trace figures and draw over your croquis after moving on from tracing paper.
- Colored pencils and markers - We will briefly touch on using color, so you may want to make the investment in them now for your future use.
